Problems with your materials?

Why not use ORMOCER®s?
ORMOCER® hybrid materials

NEW FEATURES BY UNIFYING THE ADVANTAGES OF ORGANIC AND INORGANIC MATERIALS

- scratch resistance
- chemical stability
- adjustable material properties
- generate new functions
- applicable by wet coating techniques

---

material properties

- organic lacquers
- classical inorganic sol-gel coating materials

---

curing temperature

- < 100
- < 200
- > 500

---

paper, textiles, polymers, metals, glass
